CAREER OBJECTIVE

B.Com (CS) fresher with hands-on experience building production-ready full-stack applications using the MERN stack. Skilled in RESTful APIs, component-driven UI design, and clean JavaScript. Looking to join a product team where I can ship real features and grow fast.

TECHNICAL SKILLS

Frontend	React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS
Backend	Node.js, Express.js, RESTful API Design
Database	MongoDB, Mongoose
Tools	Git, GitHub, VS Code, Postman, npm

PROJECTS

Health & Wellness Web App | *React.js · Node.js · Express.js · MongoDB*

- Built a full-stack MERN wellness platform with fitness tracking, nutrition planning, and goal-setting modules.
- Designed REST APIs with Express.js, managed user data in MongoDB, and delivered personalised recommendations via React.

Movie Review App | *React.js · Tailwind CSS*

- Developed a movie search & review app with filter logic, detailed info pages, and an interactive star-rating system.
- Leveraged React component architecture for clean data display and responsive, mobile-first UI.

Notes Web App | *React.js · Tailwind CSS · Local Storage*

- Created a notes manager with create, tag, filter, and delete features and local storage persistence.
- Focused on dynamic UI rendering and structured state management using React hooks.
