## CAREER OBJECTIVE

B.Com (CS) fresher with hands-on experience building production-ready full-stack applications using the MERN stack. Skilled in RESTful APIs, component-driven UI design, and clean JavaScript. Looking to join a product team where I can ship real features and grow fast.

## TECHNICAL SKILLS

**Frontend** React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS

**Backend** Node.js, Express.js, RESTful API Design

**Database** MongoDB, Mongoose

**Tools** Git, GitHub, VS Code, Postman, npm

## PROJECTS

### Health & Wellness Web App / *React.js · Node.js · Express.js · MongoDB*

- Built a full-stack MERN wellness platform with fitness tracking, nutrition planning, and goal-setting modules.
- Designed REST APIs with Express.js, managed user data in MongoDB, and delivered personalised recommendations via React.

### B2B Billing Software Web App / *React.js · Node.js · Express.js · MongoDB*

- Built a full-stack MERN billing platform enabling manufacturer-to-retailer (B2B) invoicing, with sales, purchase, and returns management modules.
- Designed REST APIs with Express.js for inventory, customer/supplier, and expense management, with MongoDB for data persistence.

### CAB SERVICE Web App / *React.js · Node.js · Express.js · MongoDB*

- Built a full-stack MERN cab booking platform enabling ride search, booking, and management through a responsive React interface. Designed REST APIs with Express.js and managed booking/user data in MongoDB, with secure authentication for user sessions.
